

**Supplementary Sort: -um, -ium**

This supplementary sort can be an extension of the *millennium* sort. We hypothesize that most of these words entered the English language around the 17<sup>th</sup> century. The bases of these words will lead to many word studies. Who wants to explore *aqua* words? Who will find words that have *audit* in them?

<b>Derivational Realations -um and -ium</b>	<b>aquarium</b>	<b>auditorium</b>	<b>axiom</b>
<b>compendium</b>	<b>cradium</b>	<b>crematorium</b>	<b>moratorium</b>
